

Undergraduate Math and Physics Seminar

The Beauty of Mathematics and Its Reflections in
Everyday Life

Jarmila Nguyen

*CSU Channel Islands
Lecturer*

Abstract: In this “talk” we will ask questions such as “What is mathematics?” and “Where is mathematics reflected in our everyday lives?” We will explore aspects of mathematics present in nature, art, music, architecture, poetry, and other areas. The audience will get engaged in discussions and hand-on activities. The focus will be on taking mathematics out of the textbooks and appreciate its most natural forms.

When: March 26, 2018, 4:30-5:20 pm

Where: CSUCI, Del Norte 1530
